I have to request that the Directors of the Peninsular & Oriental Steam Nevigation Company will have the goodness to cause enquiry to be made into the alleged illegal conveyance o letters by their Packets between Shanghai and Hongkong, and acquaint me with the result.

THE Provisional Committee for promoting the crection of a City Hall in Hongkong, desire to report the progress that has been made, up to the close of the present year, in furthering the object for which they are associated. The principal difficulty connected with this undertaking has been to procure a site that should be at once suitable for the purpose, and in the gift of Government; it being obvious that the present high value of Land within the limits of the City made it impossible that any sum of money, which the Committee could expect to command, would prove adequate if ground had to be An application for a site at the Western Corner of the Parade Ground, immediately unde:

Messrs, A. Heard & Co.'s Office, was promptly and liberally conceded, but, before any formal grant of the Land had been made, it was fortunately discovered that difficulties, previously thought insuperable, to the occupation of th piece of ground now partially occupied by the Harbour Master's Office, were susceptible of removal; and the Committee have the satisfaction of stacing that a recommendation for a grant of that site (undoubtedly the most eligible for the purposes of a City Hall in the whole Colony) has, with the approval of the Military Authorities, been forwarded by the local Government to the Secretary of State for the Colonies, and that the position of the Drinking Fountain (presented to the City by Mr. John Dent. and now in course o erection) has been determined with special reference to the dimensions and situation of the proposed Building. The space which, is it confidently hoped, will be thus placed at the disposal of the Committee

will enable them to embrace in their scheme the ollowing accomodation :---I. A Public Hall, to be called the St. Andrew's Hall, in acknowledgment of a sum of Five Thousand Dollars, which has been voted to the undertaking from the surplus Funds of the late St. Andrew's School. This room will be available for Public Meetings, Public Dinners, Balls, Concerts and other public purposes. II. A Supper Room adjoining the Hall, and

which, together with the Hall, can be used, when not specially required for other purposes, as an Exchange. -III. A Room for the Chamber of Commerce, where files of Newspapers, Prices Current, Books, of Commercial reference and Telegrams will be opened to the use of Subscribers to that Insti-

IV. A Public Library for the objects stated by the Trustees of the Morrison Education Society in their printed Circular of the 1st May last. V. A permanent Theatre, which will encourage visits to Hongkong by musical and histriotic artists from other parts of the East, and will obviate the necessary heavy and unsatisfactory outlay which the frequent erection of a temporary Theatre has hitherto entailed. The remainder of the space will be absorbed by

the Harbour Master's Office, which will be remoyed from its present desition to one appropriated for it in the North Eastern angle of the intended building, in accordance with the proposal submitted by the Committee to Government for permission to use the site which that office at present partially occupies. Finished plans have not yot been propared, and it is proposed that, at the proper time, they should

be thrown open to competition, but the Committee have satisfied themselves that the space they have applied for will be ample for carrying out the various objects enumerated above on a scale which will render the intended edifice an arnament to the City, a convenience to the public, and in every way worthy of a Colony wnose rapid growth and progress ato the surest proofs of its wealth, enterprise and prosperity. The urgency of the want that exists for a Pub-

lie Building of this nature need scarcely te dilated on. Without diverting the Club House from its legitimate uses, at a great sacrifice of the convenience of its members, there is not in the length and breadth of the City a suitable room which can be commanded for any object of general or social interest. The difficulties that attended the Inauguration Dinner of the Volunteers, the abandonment last winter of a Masonic Ball for want of a room to hold it in, and the disadvantages to which the professional Artists at present here are expused, are a few instances amongst very many of the inconveniences occasioned by the want of a City Hall, a want, the Committee believe, which is not shared by any other foreign Community of equal importance East of the Cape, a want which has been recently supplied at Singapore and which they trust will not be allowed much longer to serve | house

as an indication of an absence of public spirit'in Hongkong. The preservation of the valuable collections of Books in the care of the Trustees of the Morrison in hhds. Apply to Education Society, and which are threatened with decay for want of a proper place of deposit, is an object which especially commends itself as a matter of public import in a region so remote from the great centres of civilization, and where the want of standard works of reference and solid instruction makes itself continually felt. In reference to the important question of Funds,

the Committee are glad to be able to announce that they have actually in hand a sum of upwards of Fifteen Thousand Dollars, which is expected to be increased to upwards of Twenty Thousand Dollars by a Donation from the Chamber of Commerce. This amount, which has been collected from various sources without any appeal having yet been made to the Community generally, fall, however, obviously short of what will be required for the purposes contemplated, and the Committee trust that further contributions will be liberally and spontaneously tendered in support of the undertaking. Old residents, in retiring from the Coonly may perhaps adopt the example of some who have preceded them and evince their interest in its progress and in the well-being of their successors by a contribution to the . Fund. The payment of interest on the Canton claims also affords an opportunity for Donations of sums of no great importance individually, but which in the aggregate would materially assist the common object. The Provisional Committee in concluding their present report, have thankfully to acknowledge the receipt of various amounts from Mr. John Dent, Mr. C. F. Still, Mr. Edward Webb, the late Mr Angus Fletcher, the Choral Society of Hongkong. and the Trustees of the St. Andrew's School. Fur-

ing every day less interesting. It is the natural tendency of war, except in the midst of ruinous disaster, to simplify all internal controversies for the benefit of the actual Government. The Republicans, having the good for tune to be the .original promoters of the war, have profited by the well-founded opinionthat they are still its sincorest advocates. Their opponents were slow in understanding the cause which had disturbed their sincient supremacy, and only a year ago the Democrats were still numerous enough to profit by the general disantisfaction with the conduct of the Annie Duthic. war. In their premature confidence, they dis- Archer. closed their inclination to make terms with the Argonaut. But the constituencies will probably hold that the Conception original patentees of a warlike policy are the most | Coniston. legitimate claimants of their own invention. Some | Conqueror. of the Democratic leaders have devised a curious reason for uncompromising hostility to the South. It was, according to their statement, Secession which placed the Republicans in power, and the most effectual blow against Mr. Lincoln will be struck through the indirect abettors of his election.

To foreigners it appears that the struggle between | Diana. two factions who reject all prudent counsels is Dolfin altogether insignificant. If the war is to continue, there is no reason why its conduct should not Duck, still be entrusted to those who have commenced East Indian, it on an unequalled scale, and who must, in some | Economic degree, have learned their business by practice. No Democratic Ministers could have provided more soldiers, or spent money with a bolder disregard of consequences; nor could competent generals be procured except by a rapid process of elimination. It is possible, however, that the Democrats Gen. Echague in office might exhibit a salutary disregard of the Gen. Newell, violent professions on which they recently relied | Gleaner. for success; and the change of language displayed Gottland, by Governor Shymour ir his speech at the Gooper Grossvater, Institute—in which he insists that the war now Flamlet, carried on, not for the preservation of the Union Hydra, but for the centralization of power, should cease -seems to show that the party which he represents already begin to find that it is time to renew. their advocacy of peace. Unless 500,000 men can be raised in six months, the scale of the war must be definitively reduced. It is not impossible that the ensuing draft may be placed on the footing of a European conscription by the enforcement of personal service on those who are drawn at the ballot; and nothing can be more legitimate than the right of a government to the service of all its citizens or subjects in a war which is regarded as vital to the welfare of the nation. The Federal Government is fully entitled to take the organs of all parties at their word, when they proclaim their determination never to make peace unless the Union is restered. The conscription will, therefore, be wholly unobjectionable in theory, and yet it is by no means certain that it will

be enforced, or even seriously attempted.
